

14

Description

14 is an articulated, cast glass sphere with a frosted cylindrical void that houses a LED lamp. Individual pendants are visually subtle, but gain an atmospheric quality when multiplied and clustered in groups.

Remote mounted power supplies are recommended for ease of long term maintenance. Installation to be done by certified personnel to ensure code compliance.

Pendant colors: Clear, grey or amber.

Transformers are included and come wired integrally within the canopy.

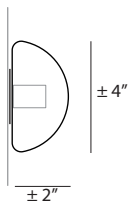

Each half sphere is hand poured and drilled thus making it different and unique from the rest.

We celebrate this uniqueness, as this is a sign that yours is truly one of a kind.
