

73

Description

73s/sp is a single hand-blown glass pendant that can be wall or ceiling mounted for indoor environments.

The wall and ceiling is designed to be composed in atmospheric groupings.

73 results from blowing liquid glass into a folded and highly heat-resistant ceramic fabric vessel.

The resulting shape has a formal and textural expression intuitively associated with fabric, which becomes permanent and rigid as it cools. A flat LED is positioned to fill the resulting volume with diffuse light, accentuating the volumetric perception of the piece.

73s requires remote mounted power supplies.

Remote mounted power supplies recommended for ease of long term maintenance.

Installation to be done by certified personnel to ensure code compliance.

Lamp: 1W LED, 2700K, 100lm

Materials: Blown glass, electrical components, steel canopy.

Brass canopy for 73s Brass.

Power Supply: 73s & 73s Brass are remote mounted.

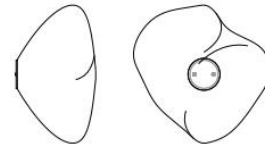

73sp is integral.

Bocci recommends remote mounting power supplies for ease of long-term maintenance.
