

28

Description

Wall or Ceiling lamp with a mounting plate designed to be mounted on walls as well as ceilings.

28 is an exploration of specificity in manufacturing.

Instead of designing form itself, here the intent was to design a system of making that yields form. Individual 28 pendants result from a complex glass blowing technique whereby air pressure is intermittently introduced into and then removed from a glass matrix which is intermittently heated and then rapidly cooled. The result is a distorted spherical shape with a composed collection of imploded inner shapes, one of which acts as a shade for the light source.

Standard 28s are made with clear glass exterior spheres and milk white interior lamp holder cavities.

28s are possible with infinite versatility in color compositions, sizes and shapes.

Includes an integral dimming system housed within a sleek brass cylinder.

The black fabric cord is semi-rigid and may be sculpted to add form. LED lamps and power cord are included.

Dimmable with build-in dial control.

Lamp: 1W LED, 2700K, 100lm

Materials: Blown glass, electrical components, steel canopy.

Power Supply: 28s is remote mounted and 28sp is integral. Bocci recommends remote mounting power supplies for ease of long-term maintenance.

Indoor, dry location. IP30
