

28 Stem

Description

Ceiling lamp with structure in a black or brass finish. Made with glass spheres lamp holder cavities. Pendants comes in clear or colored glass.

The lamp is created as a result from a complex glass blowing technique whereby air pressure is intermittently introduced into and then removed from a glass matrix which is intermittently heated and then rapidly cooled. The result is a distorted spherical shape with a composed collection of imploded inner shapes, one of which acts as a shade for the light source.

28.12 Stem ceiling mounted requires remote mounted power supplies.

Ø5"5/8 x 1/4" canopy available for remote power supply.

Remote mounted power supplies recommended for ease of long term maintenance.

Installation to be done by certified personnel to ensure code compliance.

LED lamps and power supplies are included.

Optional additional extender available.
