

28

Description

Table lamp made in blown glass and brass base with a black flexible cord.

28 is an exploration of specificity in manufacturing. Instead of designing form itself, here the intent was to design a system of making that yields form. Individual 28 pendants result from a complex glass blowing technique whereby air pressure is intermittently introduced into and then removed from a glass matrix which is intermittently heated and then rapidly cooled.

The result is a distorted spherical shape with a composed collection of imploded inner shapes, one of which acts as a shade for the light source. It includes an integral dimming system housed within a sleek brass cylinder.

The black fabric cord is semi-rigid and may be sculpted to add form.

LED lamps and power cord are included. Dimmable with build-in dial control.

Dimensions

Pendant: 6"1/2 aprox.

Base: Ø3"

Cable length: 81"

Specifications

Glass Color: Clear, colour pendants.

Lamp: 1W LED, 2700K, 100lm.

Plug Type: Type A - 110V

Finishes: Brass or black powder coated stem.

Materials: Glass, brass, electrical components.

Power Supply: Integral, dial control with build-in dimmer

Environment: Indoor, dry location. IP30.

CE UK
