

28 Copper

Description

The 28 copper suspension lamps provide a different compositional reading that results from shaping the copper tubing during installation.

Pendants can be angled in any direction to provide a range of sculptural forms.

The copper will weather and tarnish, registering the passage of time in its patina.

Standard 28s are made with clear glass exterior spheres and milk white interior lamp holder cavities.

28s are possible with infinite versatility in color compositions, sizes and shapes.

A flexible copper suspension option (in natural copper) available for all 28 pendants.

Longest and shortest lengths are determined by client, Bocci fabricates all lengths between these measurements. Specified shortest and longest lengths are from the underside of the canopy to the underside of the pendant. There may be variance of $\pm 1/8$ " on specified shortest and longest lengths.

Up-charge applies for cable lengths over 118" $1/8$. White powder coated canopy included, lamps and power supplies are included.

Pendant anchor kit not included.

*Please note: The colors in the images may vary from the actual compositions.
