

Strappy

Design: Kris Van Puyvelde

Description

Dining armchair with coated stainless steel structure consisting of one continuous rod running all the way around to form a stackable framework, to which the padded seat straps and armrests are attached. The covers are available in fabrics as per collection and a highly resistant leather imitation, and can be removed in no time for cleaning or winter storage. A seat and backrest cushion is available on demand.

Finishes & Materials

Structure: Coated stainless steel.

Covers: Fabric cat. A, B, C or Polyskin.
