
NOHRD Sprintbok V2

Description

The Sprintbok V2 features a sleek, sturdy handlebar with a built-in display for programming running workouts and tracking key performance data as you train.

Data can be transmitted from the performance display via Bluetooth to compatible phone and tablet apps, including the free-to-use companion app NOHRD Connect.

Compatible third-party apps include Zwift and Kinomap.

N.B. Requires iOS or Android device to run NOHRD Connect and third-party apps.
