

Description

Modern industrial-style ceiling fan featuring a stylized metal frame and a low-consumption, ultra-quiet DC motor with 6 adjustable speeds. Includes remote control and a reversible summer/winter function to improve year-round comfort and heating efficiency. Suitable for rooms measuring 140–189 sq. ft. The lightweight motor ensures easy installation, precise speed control, and reduced energy consumption. UL certified for the US market.

Specifications

Motor Type: DC Motor.

Electrical Specifications: 110V-120V - 50/60Hz - Dry locations only.

Fan Power (W): 3-6-8-13-21-32.

RPM: 60-81-110-129-158-185.

Airflow (CFM): 1527-2206-3104-3779-4455-5144.

Sound Intensity (dBA): 27-27-29-32-37-42.

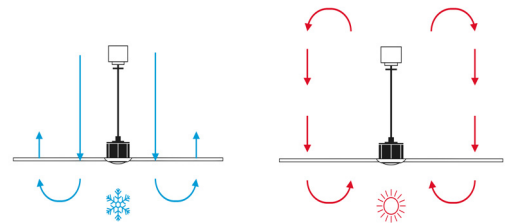

Maximum Decibels: 42.

Number of Blades: 3.

Maximum Tilt: 18°.

Control Type: Remote Control or On/Off Wall Switch with Memory.

Reverse Function

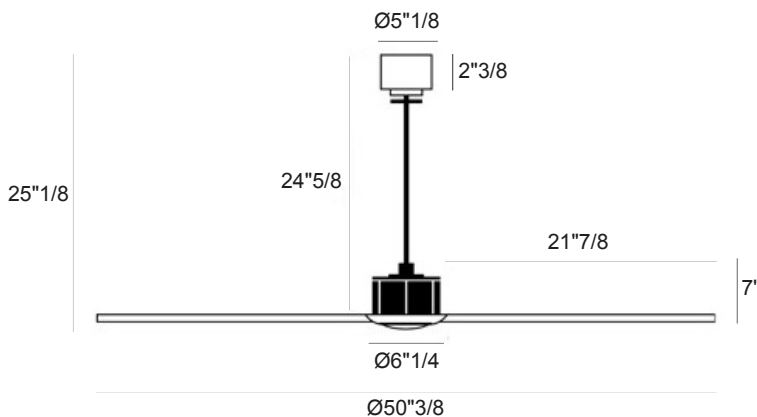

Reversible summer/winter function optimizes airflow for seasonal comfort and improves heating efficiency by redistributing warm air.

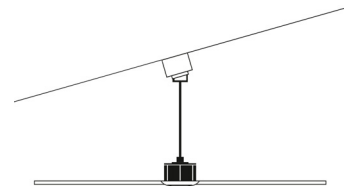

Dimensions

Ø50"3/8 x 25"1/8H

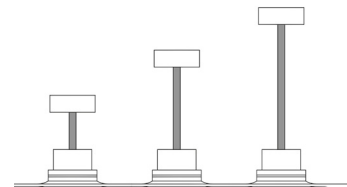

- Cod. 32100UL - 33395UL

Installation for sloping ceilings

Shanks included

This fan includes 3 shanks: 4", 7 7/8" and 18 1/8" long.

Finishes & Materials

Structure: Steel.

Blades: ABS.
