

Marine

Design: Faro Lab

Description

Marine is a ceiling fan designed for rooms ranging from 140 to 189 sq. ft. Suitable for indoor and outdoor use in damp locations, it features metal components with an anti-corrosion treatment. The fan is equipped with an energy-efficient DC motor, 6 adjustable speeds, a summer/winter reverse function, and an included remote control. Its design is suitable for sloped ceilings, providing versatile installation options and year-round air circulation.

Specifications

Motor Type: DC Motor.

Electrical Specifications: 110V-120V - 50/60Hz.

Control System: 0-10V Compatible.

Fan Power (W): 4-6-9-14-20-27.

RPM: 86-121-146-175-198-222.

Airflow (CFM): 2372-2948-3823-4479-5305-6142.

Sound Intensity (dBA): 39-40-44-47-51-5.

Number of Blades: 3.

Maximum Tilt: 12°.

Control Type: Remote control with timer.

Dimensions

Ø49"1/4 x 9"5/8H - Cod. 34274-US / 34275-US

Blades: 4"W x 19"1/4D

Reverse Function

Reversible summer/winter function optimizes airflow for seasonal comfort and improves heating efficiency by redistributing warm air.

Finishes & Materials

Structure: Steel.

Blades: ABS.
