

Mini Eterfan

Design: Conillas

Description

Compact ceiling fan designed for rooms ranging from 140 to 189 sq. ft. It features a low-consumption DC motor, 6 adjustable speeds, a summer/winter reverse function and remote control. It delivers an airflow of 5,144 CFM. The energy-efficient DC motor provides quiet operation, precise speed control, and smooth acceleration and deceleration, with up to 70% lower energy consumption than conventional fan motors.

UL certified for compliance with US market safety and performance standards.

Specifications

Motor Type: DC Motor.

Electrical Specifications: 110V-120V - 50/60Hz - Dry locations only.

Control System: 0-10V Compatible.

Fan Power (W): 4-6-9-13-22-32.

RPM: 51-77-103-129-155-185.

Airflow (CFM): 1527-2206-3104-3779-4455-5143.

Sound Intensity (dBA): 27-27-29-32-37-42.

Number of Blades: 3.

Type of control: Remote control.

Dimensions

Ø50"3/8 x 17"3/4H - Cod. 33382UL

Reverse Function

Reversible summer/winter function optimizes airflow for seasonal comfort and improves heating efficiency by redistributing warm air.

Finishes & Materials

Structure: Steel & Glass.

Blades: PC.
